

Blade

The blade tapers from the edge of the fuller to the edge of the blade.

Strapping

Cut 5mm strips to wrap around the hilt.

Trim & Ring

Use 10mm foam dowel to form the ring & round trim details

Rivets

Use a metal tube or straw to punch 5mm rivets for the plate & strapping.

Fuller

Use a rotary tool to grind out the central fuller 10mm wide.

Crossguard

The crossguard thickness is twice the thickness of the blade, and tapers down to the same thickness as the blade.

R31 Dagger 2

Crossguard Plate

Bevel the two outer edges of the plate detail.
