

Instructions:

1. Cut out pattern below, including seam allowances and trace onto your fabric.
2. If you are making a double layered mask, (recomended), include for all seam allowances. If you are making a single layered mask, just use the front seam allowance.
3. Sew your pieces together, inside out, along the front seam line.
4. If double layering, repeat steps 1-3 and sew these together, inside out, along all seam lines, leaving one rear seam open to fold it all the right way out.
5. Fold the rear tabs over along the fold line and sew inside the mask.
6. Thread your elastic or straps
7. Look Dashing

FABRIC FACEMASK

It is recomended that you use 100% cotton or tightly woven, breathable fabric. This facemask is not filtered and serves as an additional barrier against moisture and large respiratory particles only. Wearing a mask should not be seen as a replacement to safe distancing and other safe practices. R31studios makes no claim that wearing a mask will protect you from Covid19.

Makes one side of the mask, flip piece over to make other side
